SUMMARY

Product designer with 10+ years of end-to-end experience taking web, mobile and enterprise products from research and ambiguous requirements to shipped, developer-ready design. Track record across healthtech, fintech/crypto, HVAC and home services, e-commerce, edtech and legal tech, for clients in the US, Australia, Israel and Nepal. Builds scalable design systems, runs usability and A/B tests, and prototypes in code with AI tooling to shorten the path from idea to production.

PROFESSIONAL EXPERIENCE

AdLeverage Remote (US)
Product Designer Oct 2023 – Aug 2026

- Owned design for high-traffic lead-generation websites and landing pages for US home-services brands (HVAC, roofing), e.g. calljacob.com and localroofs.com, working on US hours with distributed teams.
- Designed, built and shipped conversion-focused pages in Unbounce; ran A/B tests on layouts, copy and CTAs and iterated on results to improve lead capture.
- Redesigned the designer-to-developer handoff with structured Figma specs, components and annotations, reducing rework and back-and-forth with engineering.
- Led discovery and UX research for new features; translated client feedback into prototyped user flows validated before build.

Independent Product Designer (Contract & Freelance) Remote
UI/UX Designer — Healthtech, Marketplace & SaaS clients Nov 2022 – Oct 2023

- Delivered end-to-end product design for multiple concurrent clients, including ShiftCare (aged-care management), LATIDO, The Building Decision, etc
- Converted business goals into information architecture, wireframes, interactive prototypes and high-fidelity web and mobile UI in Figma.
- Ran competitor analysis and UX research to identify opportunities; presented trade-offs and recommendations directly to founders and stakeholders.

Leapfrog Technology Kathmandu, Nepal
UI/UX Designer May 2022 – Nov 2022

- Designed Signetic, an appointment-scheduling platform built on Microsoft Power Platform, delivering polished UX within strict platform constraints.
- Designed Power BI dashboards and high-fidelity prototypes that made complex operational data easier to act on.
- Identified and resolved usability issues in existing flows, improving task efficiency for end users.
- Presented design concepts and rationale to client stakeholders and engineering leads to align on direction.

Infinity Digital Agency Kathmandu, Nepal
UI/UX Designer Nov 2021 – Apr 2022

- Built and maintained a design system that brought visual and interaction consistency across client products.
- Planned and ran usability tests and feedback sessions; fed findings back into iterative design cycles.
- Partnered with developers through implementation to ensure pixel- and behavior-accurate builds.

Dreamax Remote (Israel)
UI/UX Designer Sep 2021 – Nov 2021

- Designed user flows and UI for a no-code website builder, simplifying complex editing tasks for non-technical users.
- Conducted UX research and worked closely with developers to ship features on a fast release cadence.

Bitsbeat Kathmandu, Nepal
Senior UI/UX Designer Jul 2020 – May 2021

- Led UX for blockchain products, including a crypto wallet for Harmony (ONE): staking, NFTs and token-exchange flows.
